Ascension SmartHealth Provider Newsletter, August 2021

This newsletter shares important updates, reminders and resources related to the Ascension SmartHealth medical Plan

Verify your practice information

As part of Ascension's reach and impact goals, we are making a concerted effort to improve the accuracy of our provider directory. When a patient needs care, they start with a directory. They may search for a practitioner based upon specialty or location. If the patient picks up the phone to find that their practitioner of choice has moved or is not accepting new patients, they have to begin their search again. In addition, keeping your provider information current is critical to assure your claims are paid in a timely manner.

If you have new or termed providers or locations, please notify Seton Health Plan Provider Relations by emailing shproviderservices@seton.org.

A new way for SmartHealth members to get prescriptions delivered to their home—Ascension Rx

SmartHealth members living in Texas may now take advantage of Ascension Rx's home delivery and specialty pharmacy.

If a SmartHealth member in those states uses Ascension Rx, their first copay for their first prescription for eligible preventive medications at Ascension Rx is free through 2021*.

Have a SmartHealth member call Ascension Rx at **833-MedsARx** (833-633-7279) for prescriptions delivered to their home or for more information. Ascension Rx specialty pharmacy operating hours are Monday through Friday, 9 a.m. to 5 p.m. CT. A pharmacist is on call 24/7. More information is also available at AscensionRx.com.

*Note that the free, first copay excludes Affordable Care Act (ACA) preventive drug list prescriptions, which are already covered by law, and this offer excludes specialty pharmacy medications.

Ascension virtual care

As part of Ascension's continued efforts to meet the health and wellness needs of our associates and covered dependents, we have enhanced SmartHealth medical plan coverage for care related to the diagnosis and treatment of COVID-19 through 12/31/2021.

Telemedicine including audio-only telemedicine is covered and is listed on the schedule of benefits.

Ascension offers enhanced disease management for diabetes

Launched in July, Ascension's national care management team now offers an Enhanced Disease Management (EDM) program for diabetes to Ascension SmartHealth members. The new program is designed to help members better self-manage diabetes, while giving them the confidence they need to make informed choices regarding their health.

The EDM program works in partnership with doctors to offer personalized and integrated care from a team of specialists, including registered nurses and certified diabetes educators. This program is available at no extra cost to the member.

The team can help members with:

- Understanding their medications
- Self-blood glucose monitoring
- Recognizing the signs of low and high blood glucose levels
- Nutrition coaching for carbohydrate counting and weight management
- Scheduling their recommended annual screening for diabetic complications
- Blood pressure and cholesterol management
- Optimizing their physical activity levels to meet recommended guidelines
- And more

If you have a SmartHealth patient with diabetes who you feel could benefit from the EDM program, please refer them by calling 855-288-6747.

Review claims on the ABS Portal

Stay on top of claims information by accessing the ABS Portal. Use the ABS Provider portal to:

- View claims history and payment status
- Verify eligibility
- Inquire on status of prior authorizations
