

## We are here to help your SmartHealth High-Risk Maternity Members

### **Did you know that we have Maternity Care Managers that focus on High-Risk Maternity patients?**

Ascension's Care Management (ACM) teams work in partnership with your practice to better manage your SmartHealth patients' high-risk maternity condition, diagnosis, or other risk factors.

Our High-Risk Maternity Care Management Program is designed to help maternity patients with significant pregnancy complications (high blood pressure, diabetes, preeclampsia, multiples, neural tube abnormalities, etc.) or other risk factors.

ACM's team is available to support your patients from 8 a.m. to 5 p.m. CT, Monday through Friday. If you have any questions, call us at 1-855-288-6747.
